*Office Memorandum* • UNITED STATES GOVERNMENTTO : Deputy Chief, Economic Research *pm*

DATE: 10 October 1958

FROM : Chief, Materials Division

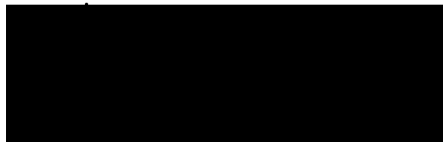

SUBJECT: Moscow Conference for OSI Consultant

1. In accordance with your request we have tried finding a conference to be held in Moscow which an OSI Consultant might attend for delivery of a paper. The subject of the paper is to be in the field of energy balances or the economics of atomic energy.

2. The only scheduled meeting which seems reasonably appropriate is the Annual Conference on High Energy Nuclear Physics, of the International Union of Pure and Applied Physics, to be held in Moscow in 1959, probably in June. There will be 300 participants, of which 150 will be from the USSR, 75 from the USA, and 75 from Europe. A similar conference was held at Vienna in June 1958.

3. It is possible that this conference covers subject matter on a more purely scientific plane than that indicated by the consultant's proposed subject field, but it is the best we can come up with.
